

Prime Guard

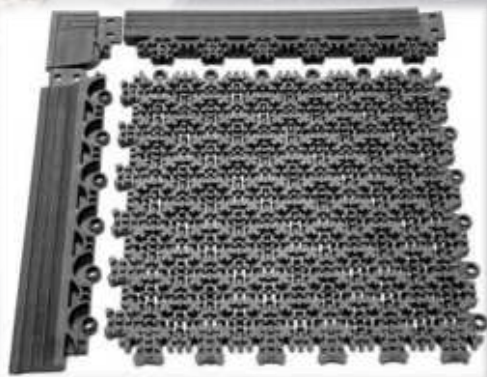

Prime Guard is our new modular, multipurpose flooring tile product. It is frequently installed as an outdoor matting system with uses in mat wells and a variety of other industrial or commercial tasks. Prime Guard can be surface mounted by using our unique edging system. It is great for all seasons and is easy to maintain through periodic washing with a hose or pressure washer. Ideally used as a primary scrub mat. Prime Guard is your first defense against floor pollution.

Features:

- Molded from a durable, “phthalate free”, TPE compound
- Modular design allows quick replacement of worn out tiles
- Overlapping, heel-safe, parallel circle design incorporates resilient scrapers and a larger contact area, improving slip resistance while still trapping dirt and debris
- Flow-through parallel circle structure, combined with the recessed grooves, facilitates unrestricted water drainage
- Designed for medium to heavy foot traffic and is intended for areas that require additional drainage capability

Applications:

- Best suited as your primary defense in main entrances, vestibules, showers, corridors, sauna or pool areas, etc.
- An excellent outdoor mat solution where a durable, lightweight mat is required
